應用科技集團有限公司

Applied Technology Group Limited

ClinicONE 數碼診所

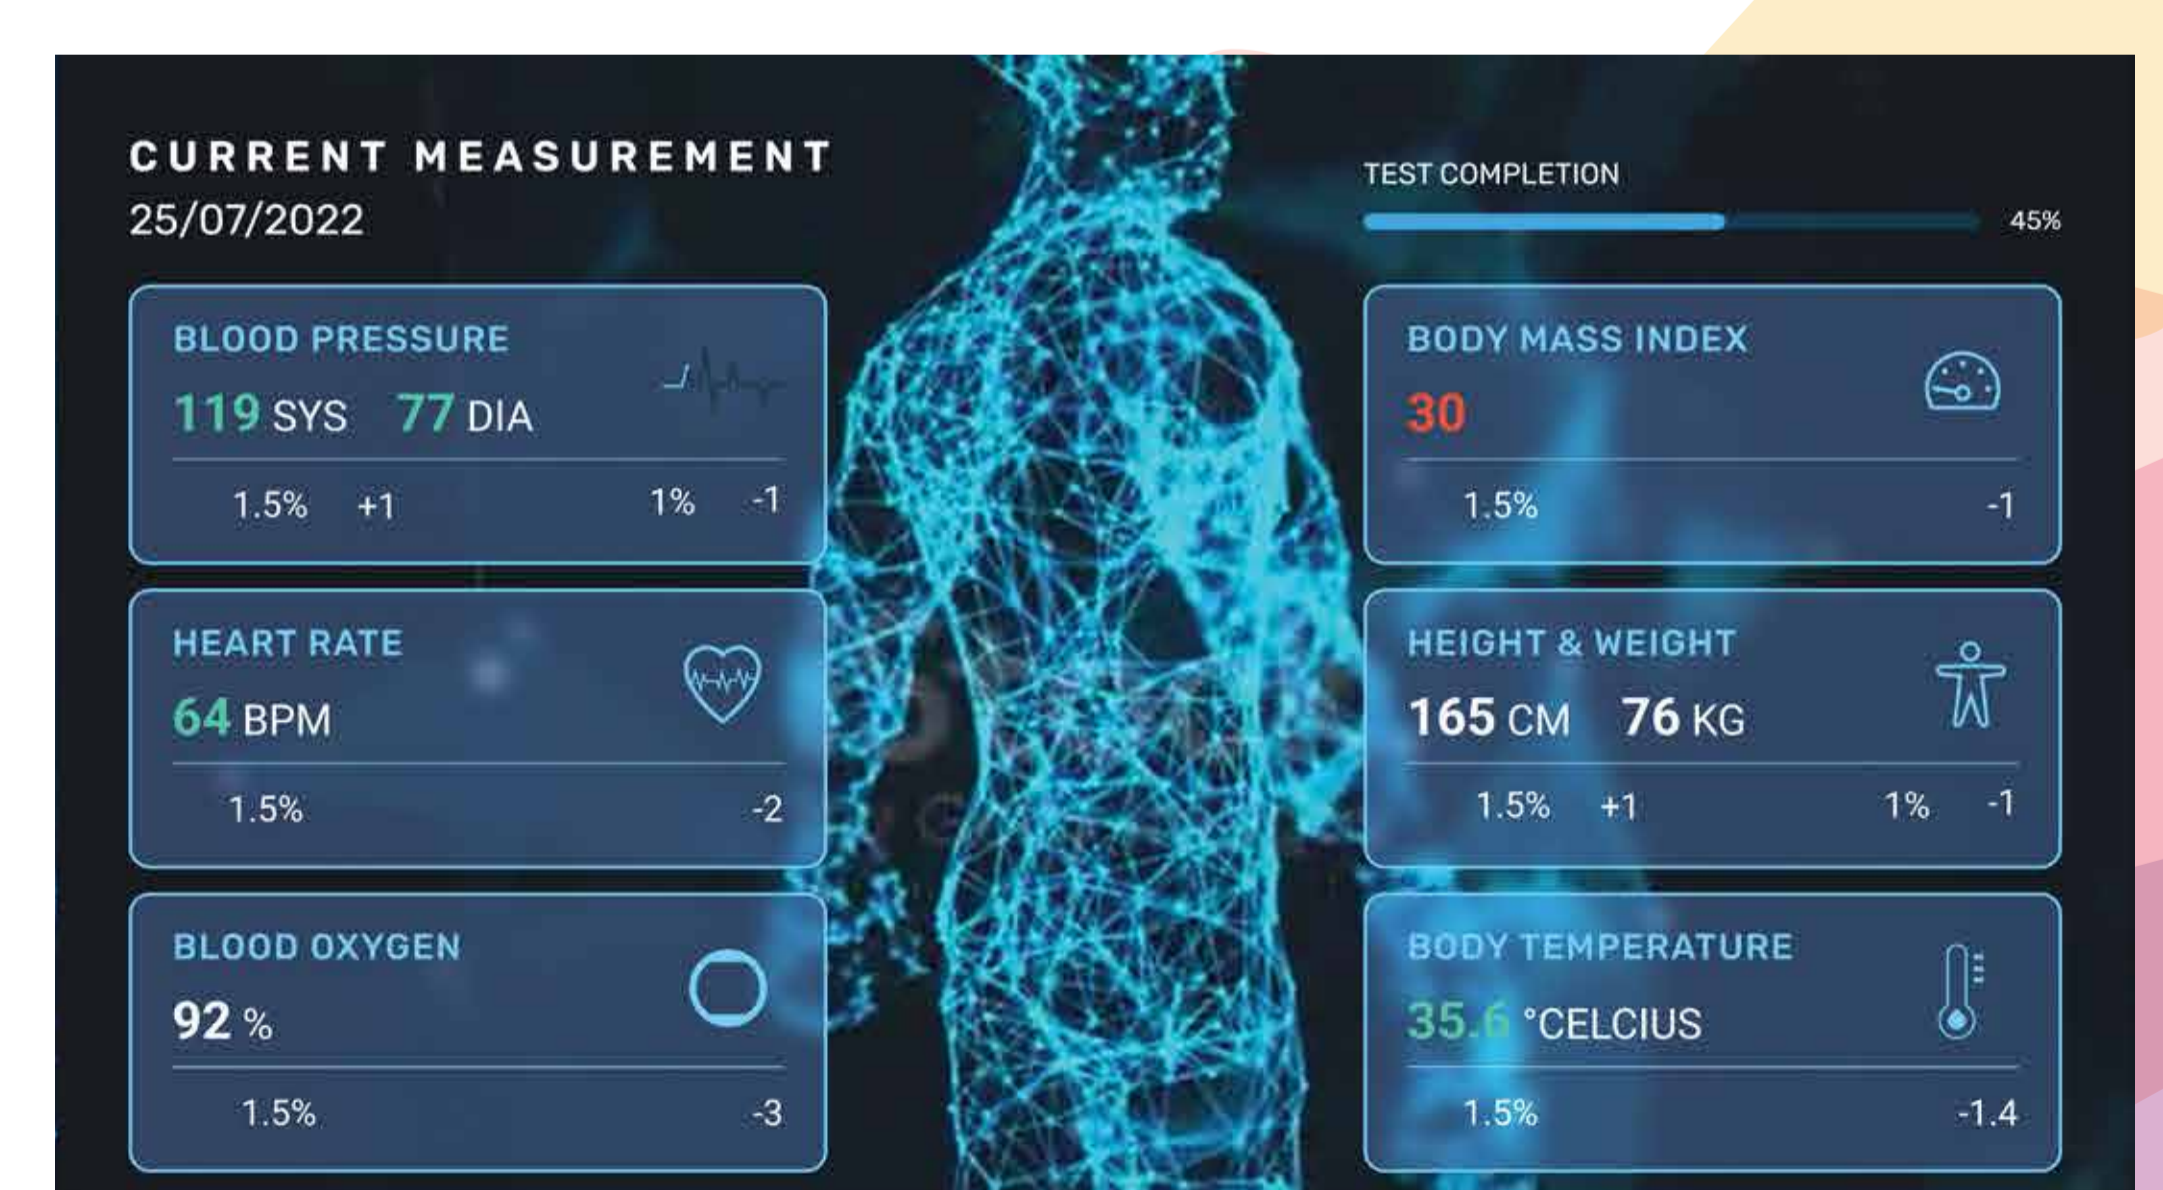

ClinicONE Digital Clinic

產品優點：

- 一站式健康檢查：包括血壓、心電圖、BMI等。數據將同步上傳至ClinicONE平台及應用程式
- 遙距醫療：數碼診所配備聽診器，方便用戶健康檢查後諮詢醫生
- 即日送藥：與嘉里醫藥合作，依嚴格的藥物派遞標準，即日把藥物送抵用戶公司或家中

Product Strength:

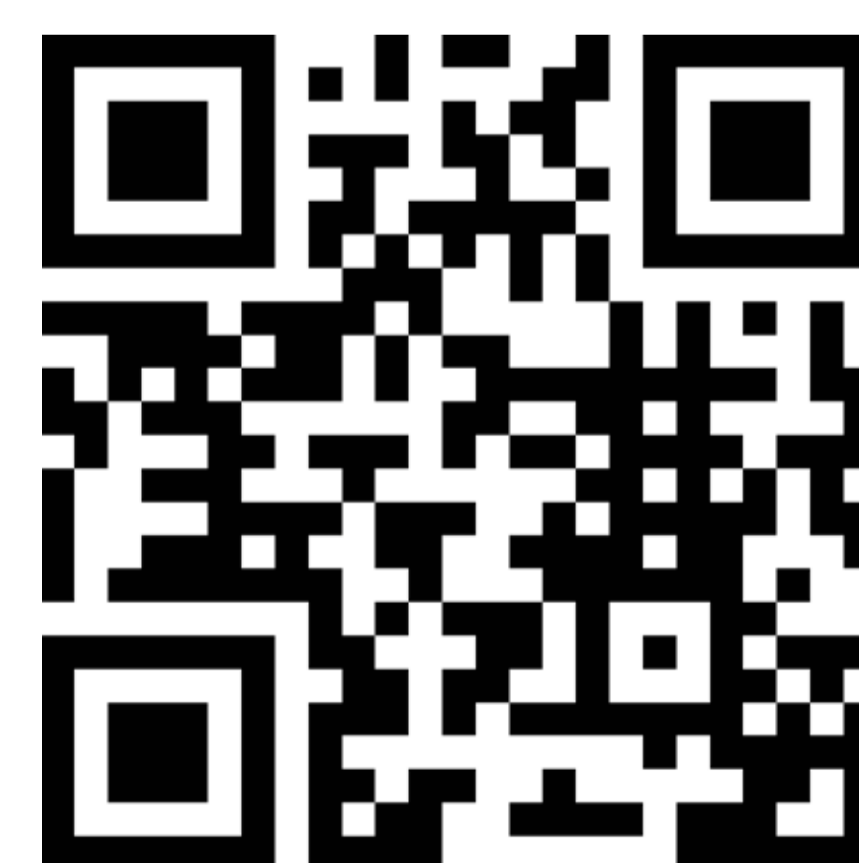

- All-in-one station: Provides BP, ECG, BMI, etc., measurement in one spot and synchronized to ClinicONE platform and patient app at once
- Telemedicine made easy: With stethoscope, users can consult a doctor after health check
- Same day drug delivery: Partners with Kerry Pharma to deliver drugs to your office/ home adhering high pharmaceutical standards

倍靈科技有限公司

Belun Technology Company Limited

倍靈遙距健康監測系統

Belun[®] remoVital Monitoring System

產品優點：

- 實時監測體溫、血氧及脈搏等生命表徵，以及早發現健康狀況變化，提示護理人員在病情惡化前作跟進
- 系統可以發展為獨居長者的健康監測平台，並納入遠程醫療系統去支援長者享用遙距醫療
- 系統提供準確的維生指數，令護理員可以隨時遙距監測長者狀況，減輕護理員的工作壓力

Product Strength:

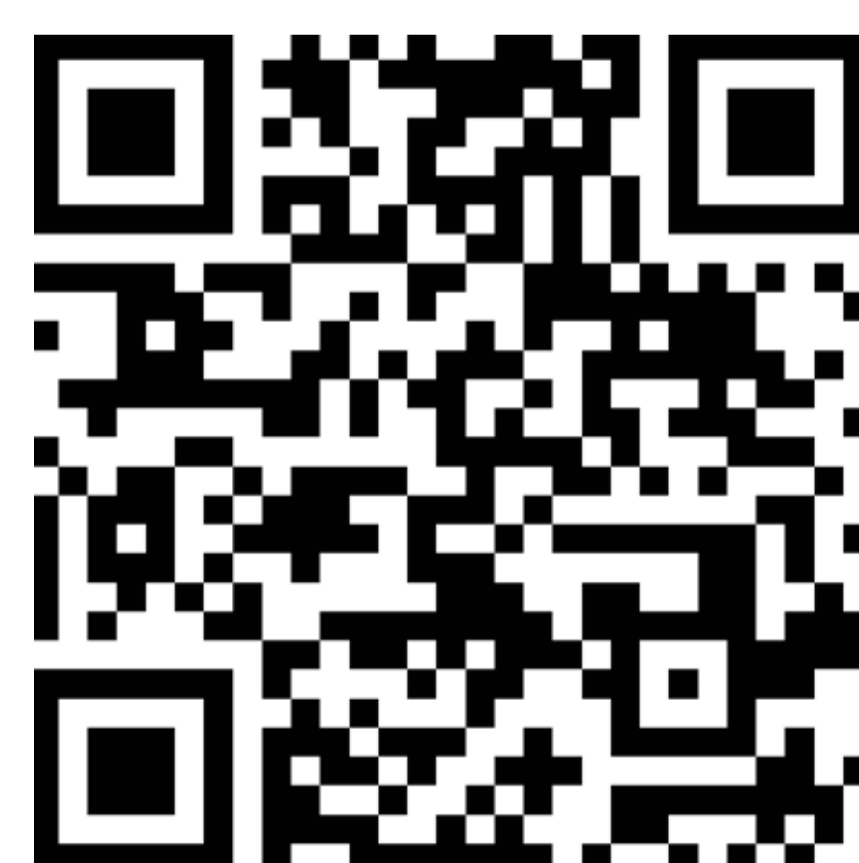

- Real-time vital signs (e.g. blood oxygen saturation, pulse rate and body temperature) with in-built alerts to detect deteriorating patients early
- Can be customized to a health monitoring platform for elderlies living alone and incorporated into other telemedicine platforms
- Empowers caretakers to remotely monitor patients' condition anytime, anywhere, with accurate & reliable vital signs, offering massive relief to the highly stressful workforce

永泰信息技術服務有限公司

iASPEC Services Limited

Doctorgram — 融合醫療生態系統

Doctorgram — Convergence Healthcare Ecosystem

產品優點：

- 使用備有AI健康指導及不同醫療設備的遙距醫療系統，在家實踐預防性護理
- 通過藍牙醫療設備和App內警報系統，有效遙距及長期監控患者的維生指數
- 結合先進診斷工具（如數碼聽診器等）與長期護理及遙距會診系統，實現精準診斷

Product Strength:

- Realizes preventive care at home using our tele-medicine system, medical devices and functions such as hybrid AI health coaching
- Monitors patients' vital signs continuously with medical devices via bluetooth and in-app alert system in a remote setting
- Provides more accurate diagnostics by integrating advanced digital diagnostic tools (e.g. digital stethoscope) and chronic care & teleconsultation systems

智原科技有限公司

Intelligent Design Technology Limited

非接觸式健康監測系統

Contactless Health Monitoring System

產品優點：

- 透過鏡頭及AI測量健康數據
- 雲端平台支援遠端健康數據收集及分析，讓護理人員及照顧者即時了解用家的健康狀況
- 可於機械人、智能手機、手提電腦、平板電腦、智能鏡子等不同裝置上應用

Product Strength:

- Monitors health through cameras and embedded AI
- Enables remote monitoring and privacy-preserving data analytics via cloud platform to keep caregivers and family members informed of the user's real-time health condition
- Accessible via various devices, e.g. robots, smartphones, laptops, tablets, smart mirrors

全境智能有限公司 PanopticAI Limited

非接觸健康監測技術

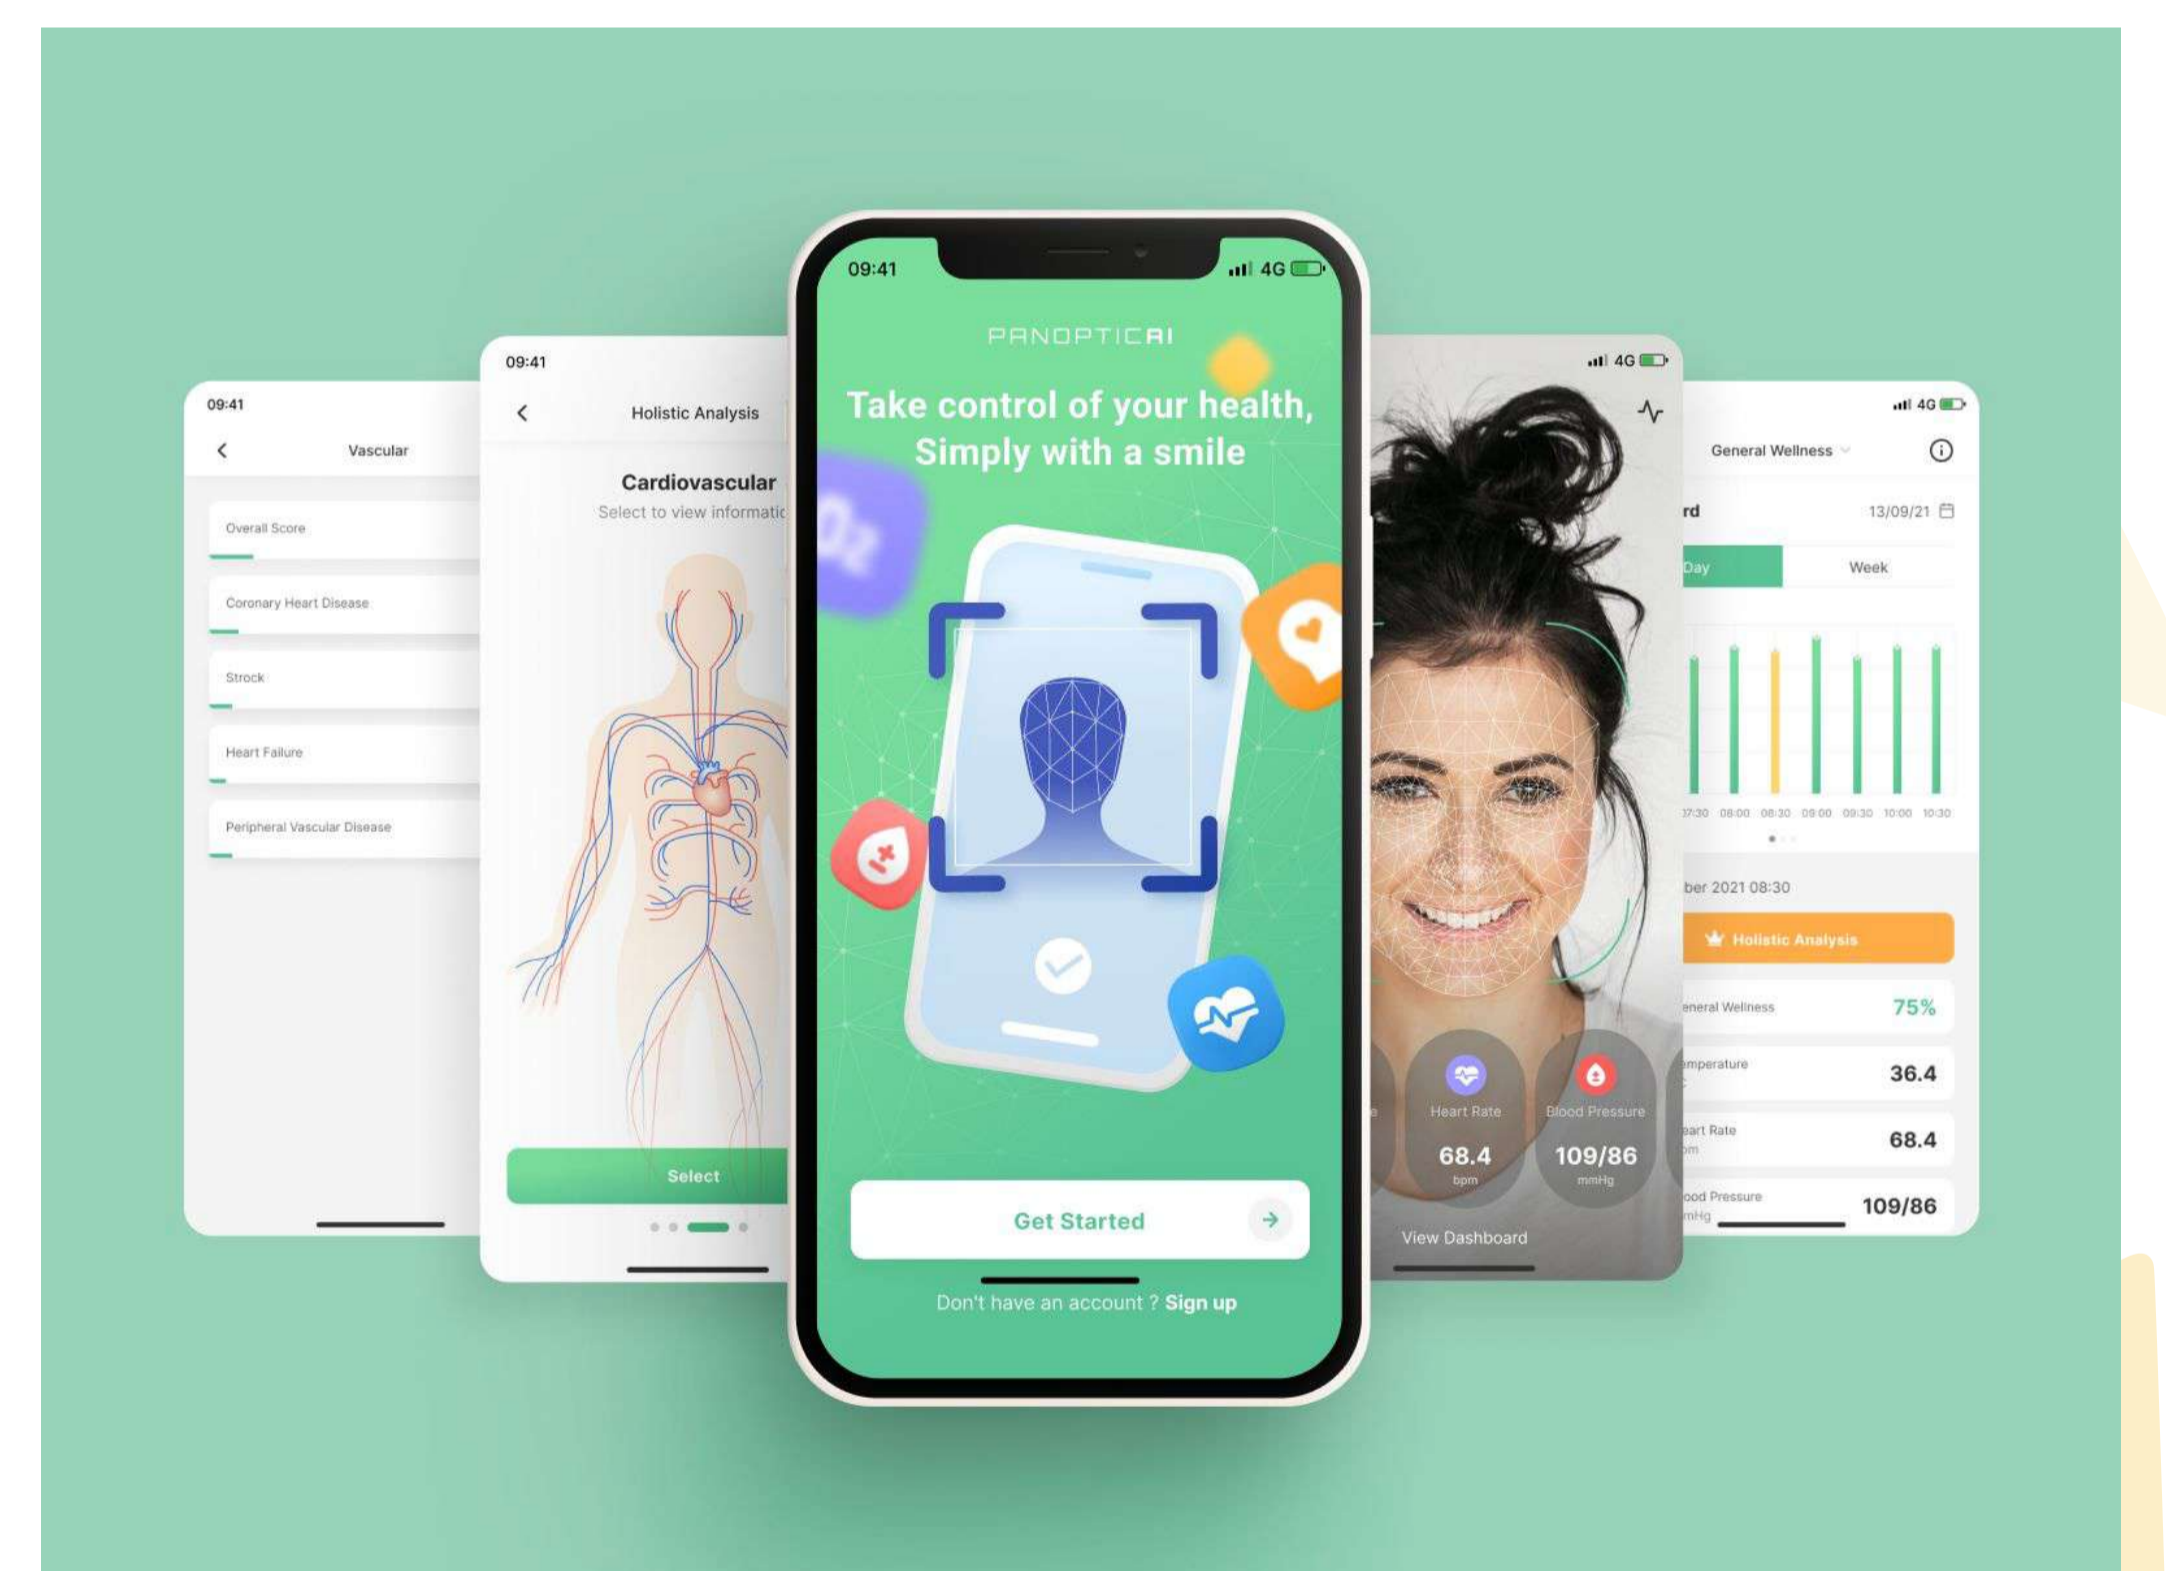

Camera-based Health and Wellness Monitoring Solution

產品優點：

- 零接觸30秒內測量你的健康狀況—心率、呼吸頻率、血氧飽和度、血壓等
- 無需接觸式或穿戴式設備—可用於智能手機、平板電腦和手提電腦
- 創新方案建立在科學研究、臨床研究和專業知識之上

Product Strength:

- Contactless measurement of your vitals in 30 seconds - heart rate, respiration rate, blood oxygen saturation, blood pressure, and more
- Eliminates the need for wearables and contact-based sensors - available on smartphones, tablets, and computers
- Technology backed by scientific research, clinical studies, and expertise

樂心聽 — 個人健康記錄儀

Hera Leto Active

產品優點：

- 用戶只需要2個設備（生理數據感應耳塞和血壓計），即可監測5個關鍵生理數據，包括心率、體溫、呼吸率、血氧飽和度（SpO2）和血壓
- 生理數據感應耳塞配備語音功能，供用戶和醫護人員進行遠程問診，同時讓醫療保健提供者參考用家的實時生理數據
- 允許醫療保健提供者儲存復康運動短片，並分配適合的短片給用戶參與訓練

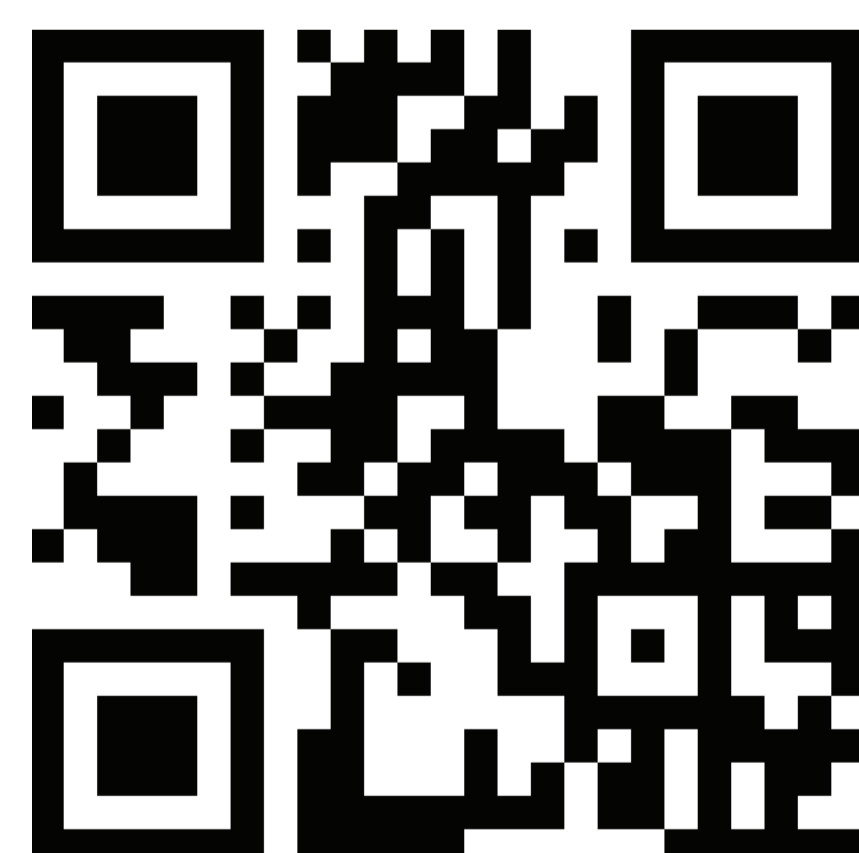

Product Strength:

- With only 2 devices (a bio-sensing earbud and blood pressure monitor), users can monitor 5 key bio-signals (heart rate, body temperature, respiration rate, SpO2 and blood pressure)
- The bio-sensing earbud is equipped with audio features, allowing users and healthcare providers to conduct tele-health sessions while offering healthcare providers access to users' real-time bio-signals
- Allows healthcare providers to upload rehabilitation exercise videos and assign exercises to users

醫念科技有限公司

Medmind Technology Limited

腦有記 — 認知訓練系統

NeuroGym — Interactive Cognitive Training, Monitoring and Gaming platform

產品優點：

- 遊戲融合本土文化，並可自動調節難度，讓用家主動參與個人化訓練，預防認知障礙症
- 報告管理系統自動收集訓練數據以供照顧者監測及評估用戶狀況。遙距控制、多人連線功能，方便疫情下線上訓練
- 主題包括麻雀、書法、日常生活情境、繪畫等，並加入新元素如藝術治療和運動，加強身心訓練

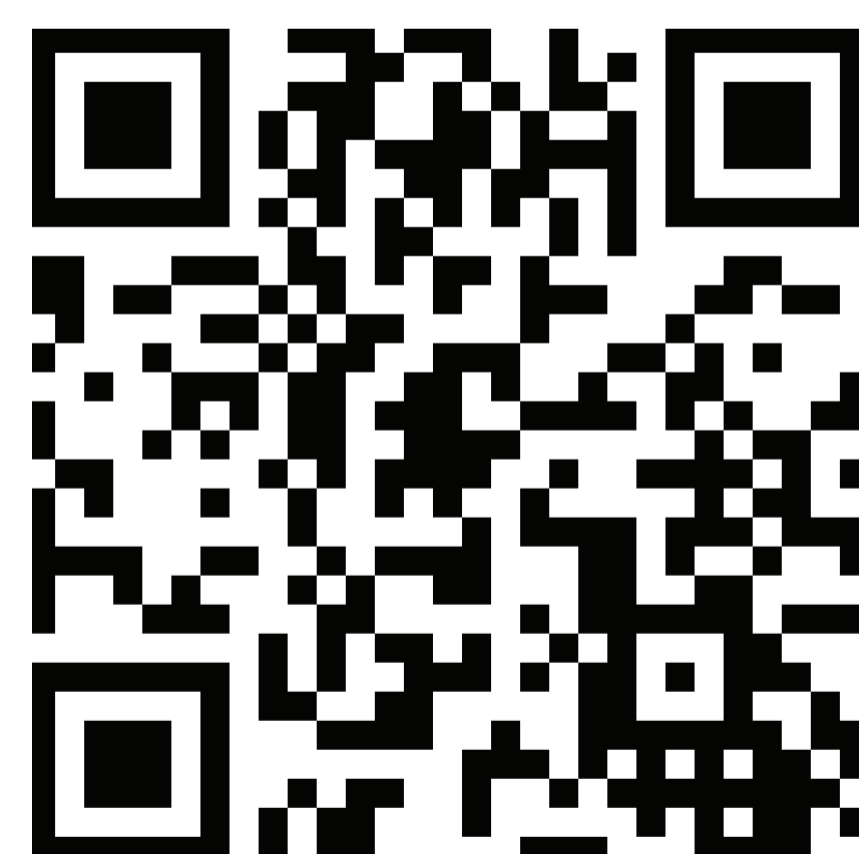

Product Strength:

- Our interactive cognitive training games are local culture-themed, with self-adjusting difficulty levels catered to every user
- Our report management system collects and manages training data automatically for easy monitoring/assessment. Under COVID, remote control and multiplayer mode are widely used for online training
- Themes include mahjong, Chinese calligraphy, daily living, and painting. New features include art therapy and physical exercise

智活研發有限公司

Mindvivid Limited

智活無限 — 認知訓練應用程式

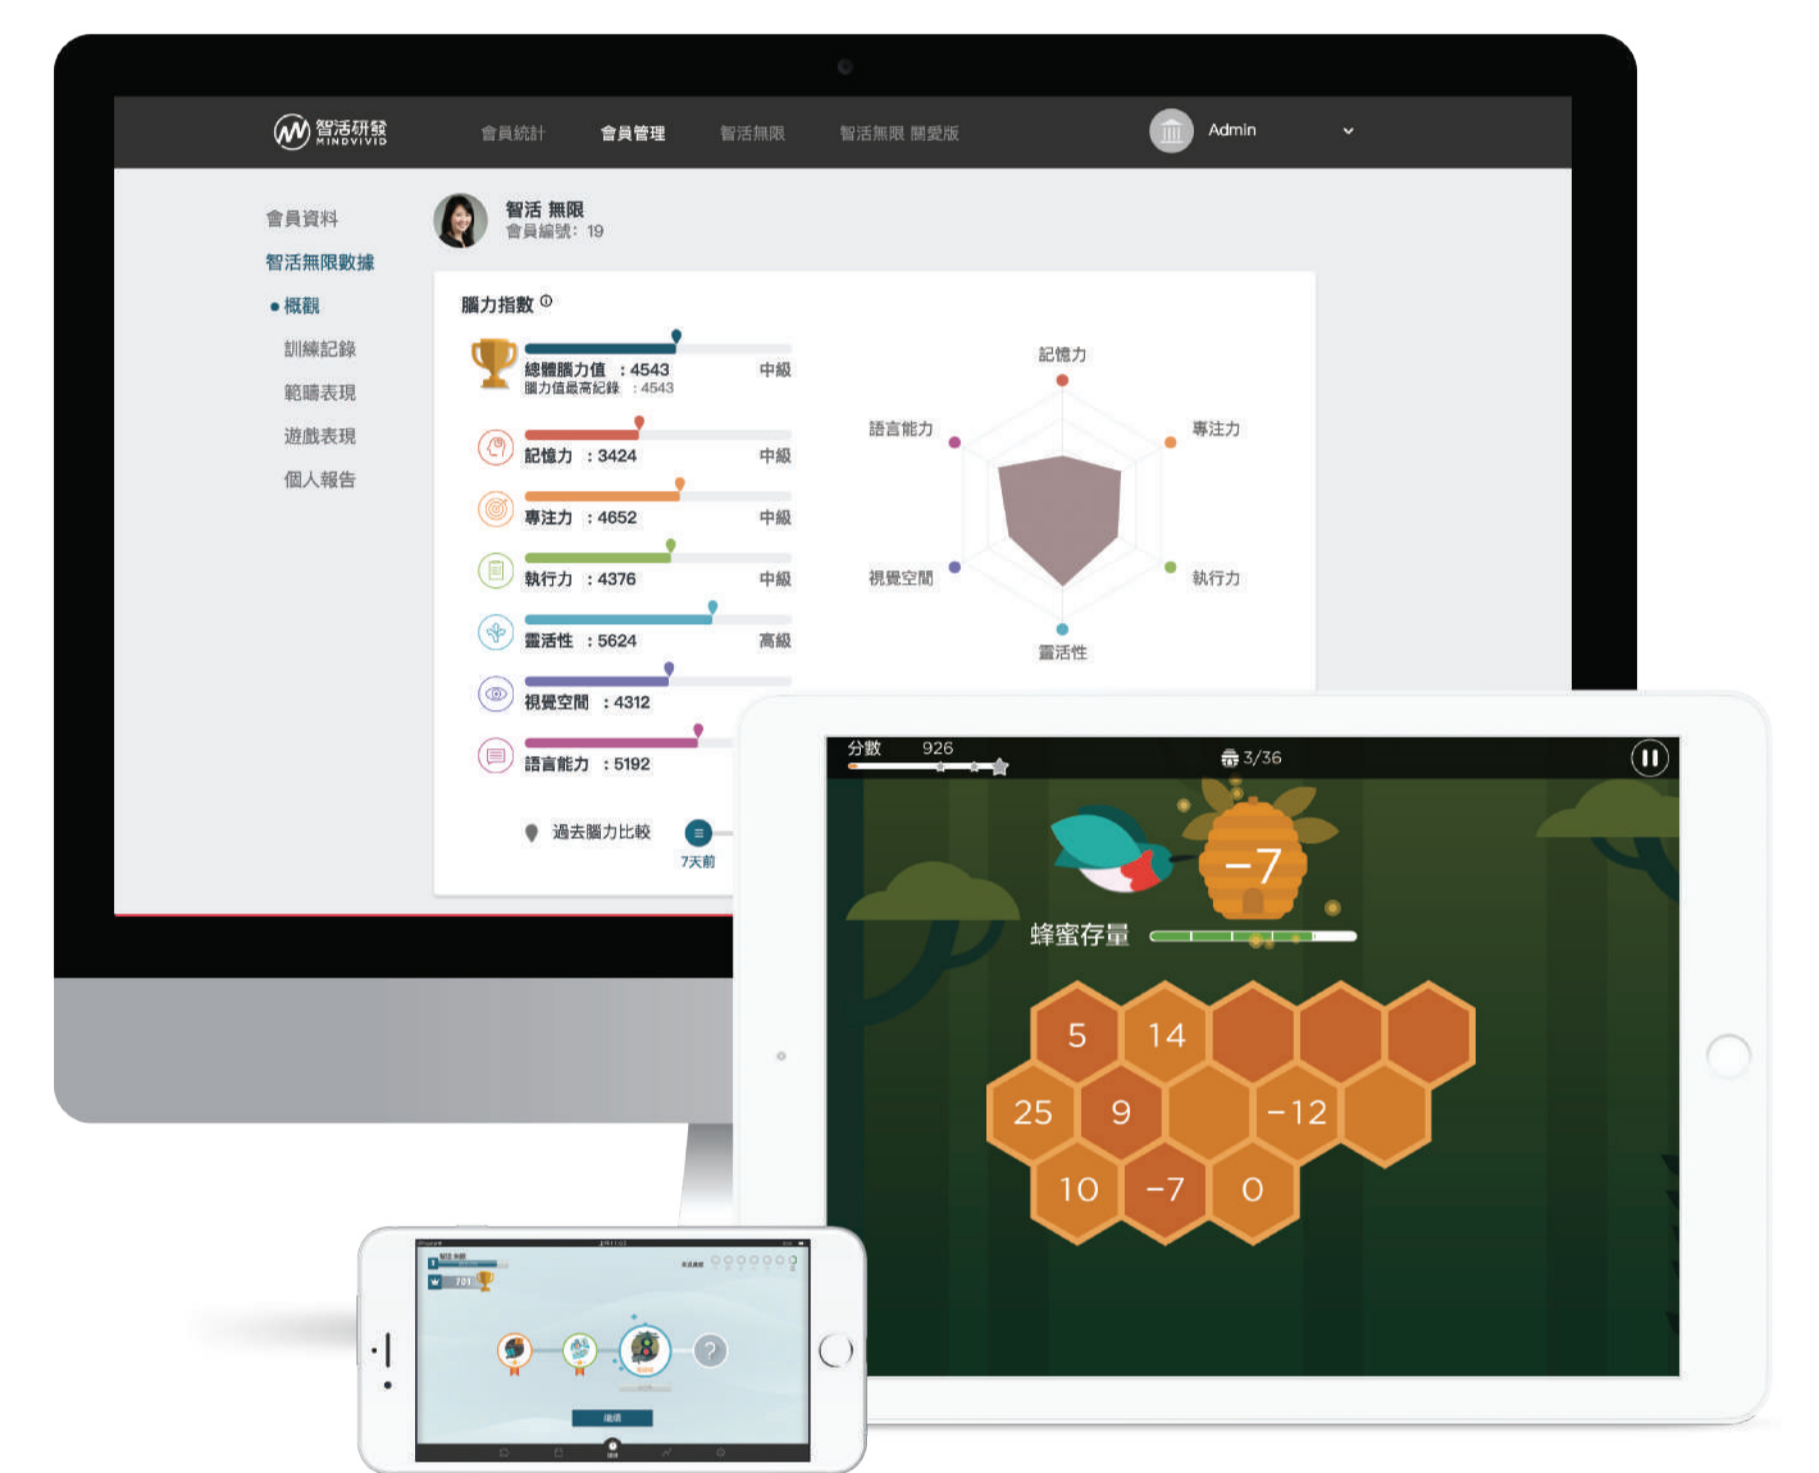

Brainastic — Cognitive Training App

產品優點：

- 全港首個本地研發及驗證的認知訓練App，集科研、訓練、遊戲、體感互動及數據監測於一身
- 6大認知範疇（記憶力、專注力、執行力、靈活性、視覺空間、語言能力）及超過20款遊戲
- 經香港中文大學進行本地驗證，能有效提升腦部能力、延緩腦部退化，兩份研究論文已發表

Product Strength:

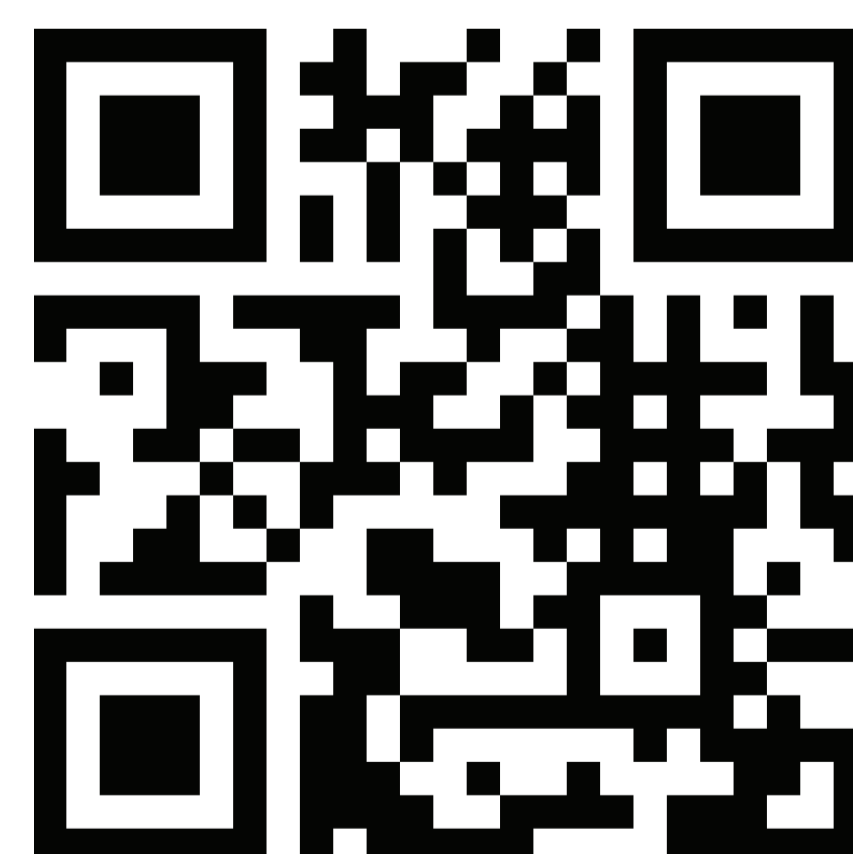

- The first local cognitive training app developed and validated in Hong Kong. It combines scientific research, brain training, entertainment, motion sensing and data monitoring in one
- 6 cognitive domains (Memory, Attention, Execution, Flexibility, Visual Space, Language) and more than 20 fun training games
- CUHK-validated: "Brainastic" as a regular training was shown to improve cognitive ability and slow down brain degeneration effectively. Two research papers have been published

Service Operation

服務營運支援

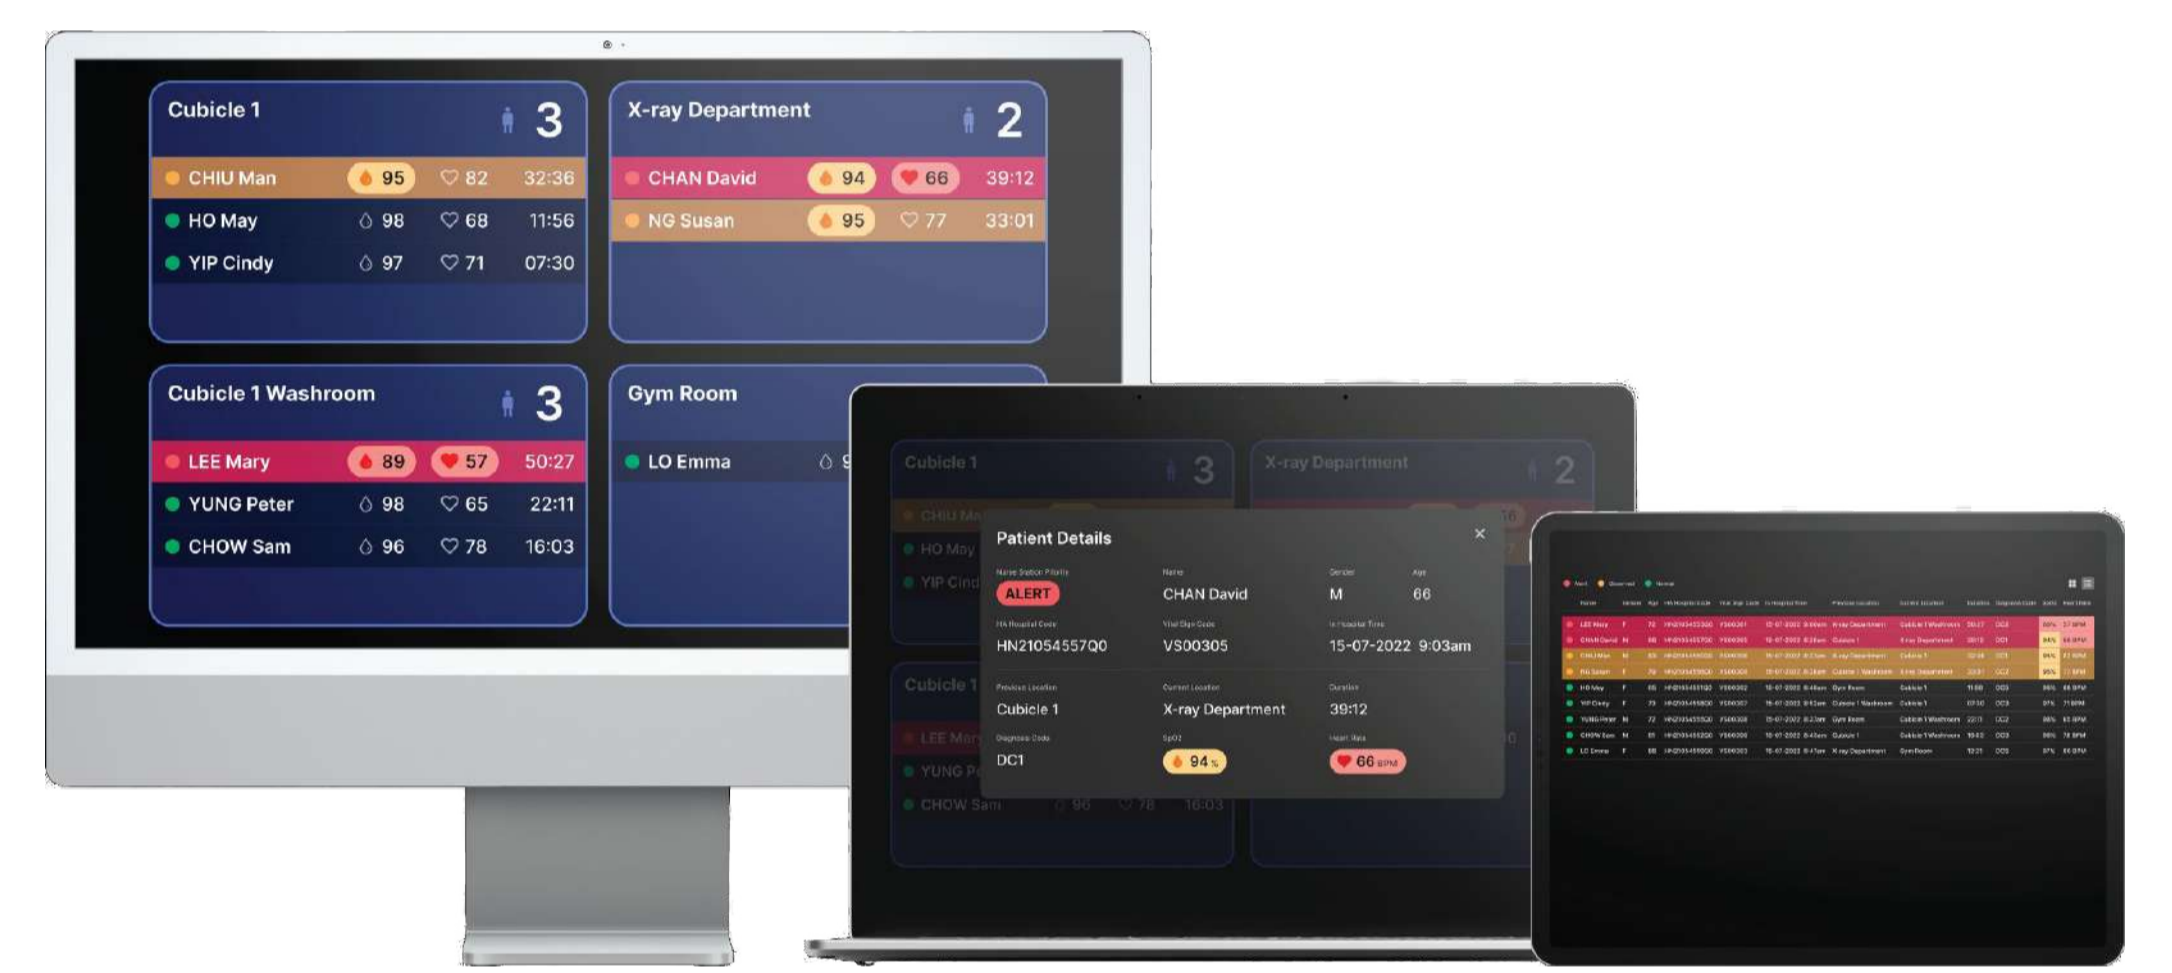

萬信電子科技有限公司 Megasoftware Limited

社福與醫療智能整合系統

Integrated Systems for Healthcare Institutions

產品優點：

- 監測長者與病人的活動與健康狀況，包括血氧飽和度 (SpO2) 與脈搏。此外，生命體徵更提供實時位置追蹤，為用戶提供24小時防遊走保護
- 讓護理人員及早偵察用戶的無症狀感染問題或隱疾，使他們更有效地分配資源，優先照顧病者
- 提供中央數據儀表板，方便醫護人員能夠迅速地提供診療建議予長者與病人

Product Strength:

- Monitors the movements and health conditions, including oxygen saturation (SpO2) and pulse rates of the elderly and patients, as well as to track their locations for 24-hour anti-wandering and geofencing zone protection
- Allows caregivers to detect signs of infection or symptom-less medical problems of the patients, so they can quickly mobilise staff to take care of those who are in acute need
- Provides a real-time centralized data dashboard so the medical professionals can provide quick medical advice to the elderly and patients

GB1 — 智能機械人小助手

GB1 — Smart Assistant Robot

產品優點：

- 可按需要編程來協助醫院病房和安老院內的日常操作（例如：實時遙距巡邏、廣播、視頻通話、測溫、導航和運送物品）
- 配備14寸屏幕、夜視鏡頭和sim卡槽，並會於缺電時自動返回充電座充電
- 爬坡能力為7°，可通過無障礙通道及盲人釘，適用於醫院或院舍環境

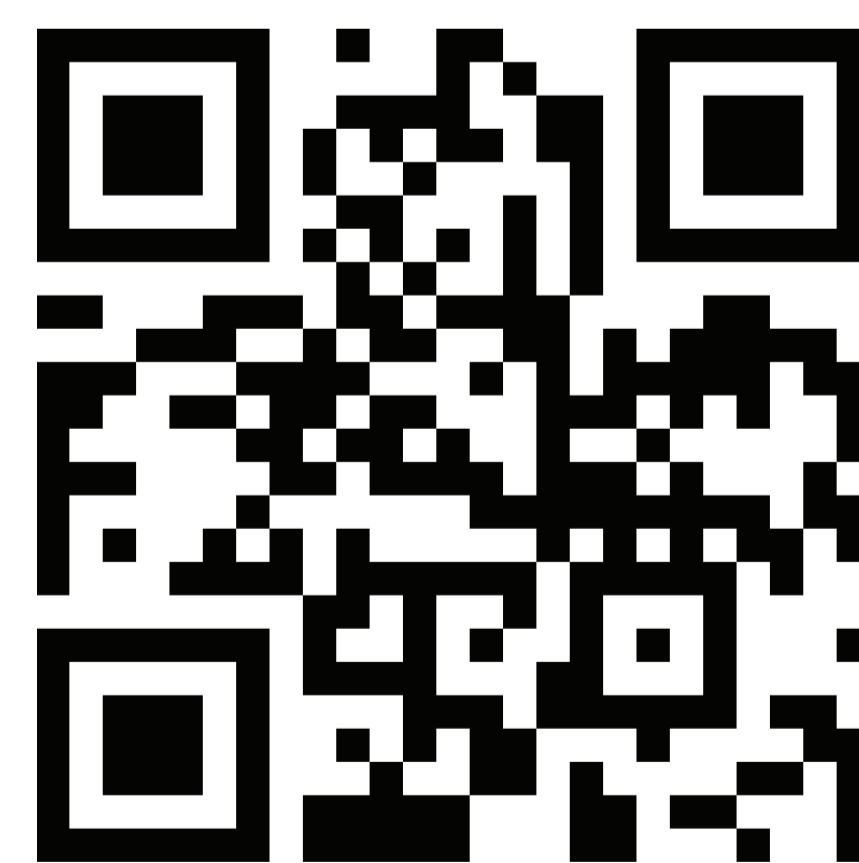

Product Strength:

- Assists hospital wards & elderly centers with customizable daily operation tasks, e.g. real-time remote patrol, broadcast, video calls, temperature check, navigation, object delivery
- Comes with a 14" screen, a night vision camera and a sim card slot. It can go back to the charging dock by itself when it is out of battery
- Can climb slopes of up to 7° and pass through tactile paving, which is suitable for hospital or elderly home environments

Kite 2 — Smart Personal Sound Amplifier with Noise Reduction

產品優點：

- 首創：基於振動傳感器的自聲消除技術，讓首次佩戴的用者快速適應助聽器的聲音效果
- 舒適聆聽：擁有專利的智能降噪科技，有效降低背景噪音和增強人聲效果
- 簡單易用：大而符合人體工學的掛頸設計和帶有凹凸標誌的控制按鈕，讓任何人都可以輕鬆操作耳機

Product Strength:

- **First-of-its-kind:** Vibration sensor-based own voice cancellation technology lets first time wearers quickly adapt to the hearing effects
- **Comfortable:** Patented intelligent noise reduction technology effectively reduces background noise and enhances human speech
- **User-friendly:** The larger yet ergonomic neckband design and control buttons with tactile indicators make it easy for anyone to operate

創啟社會科技有限公司

InnoSpire Technology Limited

悅聲智能眼鏡

WeVoice – Smart Glasses

產品優點：

- AI技術可分析以眼鏡或附屬應用程式拍到的實時影像，再朗讀其中文字，提高用家自理能力
- 配搭免費手機App「悅聲易－視障好幫手」，連繫視障人士及義工
- 除AI外，用家亦可將實時影像傳予義工，再由他們用聲音給予指引

Product Strength:

- AI text-to-speech using real-time images through WeVoice Glasses and App, enhancing the user's self-management ability
- Comes with a free mobile app WeVoice Plus to connect visually impaired people with volunteers
- Other than AI, users can also send real-time images to our volunteers, who can guide the users on their tasks
